### Examiner's Statement of Reasons for Allowance

Claims 1-10 are allowed in view of the recitation of a “programmable machine for measuring time...comprising a data entry unit to input parameters that describe at least one non-linear function as one of a plurality of distinct mathematical...functions, an arithmetic logical computational unit...computing the plurality of functions using time as the independent variable..., the structure claimed in combination with the remaining elements of the claim being absent from and not obvious in view of the prior art of record.

Claims 11-20 are allowed in view of the recitation in claim 11 of “an electronic programmable timer comprising a data entry unit to input parameters that describe a set of exam questions, a time allocated for the exam questions, a question difficulty, and the number of questions, arithmetic logical computation unit that performs operations on numeric data, computing a plurality of distinct functions of the input parameters, using time as the independent variable”, in combination with the remaining elements of the claim, the structure claimed being absent from and not obvious from the prior art of record.

### DRAWING

The proposed drawing corrections have been approved. The substitute sheets are not approved because the solid shading is objectionable (37CFR1.84(m)), as well as the extraneous material (X's at the top and bottom of each sheet, note the margin requirements). Therefore, formal drawings are required

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
